QUARTERLY PROGRESS REPORT FOR WORK

Dec. 31,,2006

DONE UNDER RESEARCH AGREEMENT

INSTITUTION: Auburn University

PROJECT TITLE: Evaluating Peanut Cultivars Planted by
Conventional and Reduced Tillage Methods and Twin and
Single row Patterns.

RES. AGR. NO: APPA-RIA03PA PROJECT LEADER: Dallas L. Hartzog

EXPIRATION DATE: Dec. 31, 2006

SPRI CONTACT: Randy Griggs NPB CONTACT: Stephen O'Brien

REPORT OF PROGRESS: Research plots were established in 2006 at the Wiregrass
Research and Extension Center, Headland AL as part of a multi-state project. Insect and
disease populations were monitored season long as well as plant growth parameters.
The peanuts were harvested, the insect and disease incidence data and the peanut yield
and grade data was obtained and forwarded to Dr. John Beasley, Project Leader.
